

COTTON BILLS FIGHT OPENED FIRE THREATENS DEVASTATED BELIZE HARBOR WARNS LEGION LEADERS ON BONUS

HURRICANE DEATH LIST NOW PLACED AT OVER THOUSAND

SCORES OF BODIES BURNED;
FLAMES BREAK OUT IN
STRICKEN CITY

BELIZE, British Honduras, Sept. 14.—(P)—Fire threatened to complete the destruction of storm and flood today as the work of burying and cremating the dead from last week's hurricane, now estimated at more than a thousand, went forward.

The suburb of the Mesopotamia was menaced by flames that spread rapidly in spite of unceasing efforts on the part of soldiers and civilians to block their path. An inflammable liquor warehouse was in the path of the conflagration and fears of an explosion spurred the fighters to frantic measures.

Scores of bodies were burned on five great pyres almost in the center of the flourishing city, now in ruins. At least 700 bodies were buried in crude trenches dug in the cemetery by convict labor. Still more bodies floating down the river were made available for cremation.

Accurate check of the dead impossible. Cremation was resorted to because of the fear of disease. Squads of volunteer laborers worked under the direction of Honduran soldiers to clear away the tangled wreckage of what once were homes and stores. Business was paralyzed and all manner of activity was subordinated to the work of relief.

Hundreds of those maimed and cut by the fury of the storm were being treated with medical aid rushed by airplane and ship. The U.S.S. Swan and the Sacramento and other navy ships on the scene. The British ship Danae is en route with additional food and medicine.

A shortage of food and water was feared but the arrival of relief expeditions partially remedied the situation. Authorities were of the opinion that troops had things well in hand and there would be no food riots or looting.

A survey of the city by air showed that not a building was left unmarred. More than a dozen ships were piled upon shore along the waterfront. The city, a company building, center of the chicle industry in this section, was demolished and the customs house was badly damaged. Many houses were torn from their foundations and hurled into the streets.

About one person in every 14 among the city's population of 16,000.

ERA OF RAILROAD CONTROL PASSING SAYS A. T. BARRETT

FIGHT AGAINST MOTOR AND
CANAL TRANSPORTATION
JUST STARTING

FORT WORTH, Sept. 14.—(P)—The era of railroad control is passing, A. T. Barrett, Fort Worth, president of the Texas Bus Owners' Association, told truck and bus operators and drivers here yesterday, but, he declared, the fight against motor and canal transportation is only beginning.

Besides a local group, men from Dallas, Mineral Wells, Breckenridge, Abilene, Wichita Falls, Clarendon, Beaumont, San Antonio, San Angelo, Ranger, Waco, Hillsboro, Lampasas, Houston, Henrietta, Bowie and Seymour gathered for the first time in the new truck law, and discussions of highway safety and good will.

Ed Spores, Fort Worth, who is attacking the constitutionality of the law in federal court at Houston, and L. G. Phares, chief of the state highway patrol, pointed out phases of the law, and stressed the importance of courtesy and careful driving. Spores said that he would appeal his case to higher courts if no relief was given by the federal court.

Joe Carrington, Austin, manager of the Texas Truck Owners' Service Bureau, predicted that an attempt would be made at the next regular session of the legislature to tax the motor transportation industry, and said that such propaganda already had been started.

Where Thousand Died In Hurricane

This is an aerial view of Belize, capital of British Honduras, in Central America, which was battered by a fierce hurricane that caused at least 1,000 deaths and untold property damage. The United States government has ordered a relief expedition to proceed from the Canal Zone to the stricken area.

VIOLENT DEATHS OVER WEEK-END IN TEXAS TAKE NINE

FOUR SHOOTINGS, TWO
AUTO WRECKS AND THREE
OTHER ACCIDENTS

(By The Associated Press)

Four shootings, two automobile wrecks and three other accidents took the lives of nine persons in Texas during the week-end.

The dead: Mrs. H. M. McIlroy of Cisco, Ed Burden, 46, of Dallas; Ed Johnson, 46, of New Braunfels; George Zwick, 23, of Houston; H. H. Boenicke, 55, of Trickleham; G. W. Hall, 31, of Lockesburg, Ark.; Mrs. Leola Whalley, 27, of Dallas; Ramon De Hoyos, 21, of San Antonio, and Emilio Martinez, 57, of Laredo.

Burden, Boenicke, Mrs. Whalley and Martinez died of gunshot wounds. Coroners' verdicts held Mrs. Whalley and Martinez died of wounds inflicted by the time they were identified by a Dallas deputy sheriff as a man who engaged him in a pistol fight after an unsuccessful attempt to rob a decoy early near White Rock lake late Saturday night. Boenicke was struck and fatally wounded by a charge of shot from a shotgun which he pulled through a fence while hunting.

Johnson was fatally injured when struck by a heavy truck as he crossed a street in New Boston yesterday. Mrs. McIlroy was fatally injured in an automobile accident.

OFFICIAL FIGURES REDUCE SPEED MADE BY FLYER FOR CUP RACES; 379.05 MILES

CALSHOT, England, Sept. 14.—(P)—British aviators were surprised and somewhat disappointed today when it was announced that the figures to be submitted for official approval in connection with Lieut. G. H. Stainforth's attack on the world's speed record yesterday will be 379.05 miles an hour instead of 386.1 as unofficially given out yesterday.

The reduced figures still constitute a new world speed record, however. T. error in yesterday's figures was due to the use of stop watches by the timekeeper. To comply with the regulations the speed of a Schneider cup plane must be established by an automatic timing device.

A film of the timing apparatus today showed that Lieutenant Stainforth's actual speed was nearly seven miles less than that recorded by the stop watches. The fastest lap was flown as 388.87 miles an hour instead of 404.285 as the stop watch showed.

Lieut. J. N. Boothman went through the formality of winning the cup permanently by flying seven times over a 31-mile course at an average speed of 340.08 miles an hour. He also broke the world's record over a closed circuit with a 100-kilometer start by speeding 342.9 miles an hour in the course of his flight.

Ho! Hum! But How About The Price of Cotton?

FAYETTEVILLE, Ark., Sept. 14.—(P)—J. C. Massie, professor of mathematics at Fayetteville high school, claimed today he has tri-sected an angle with a straight edge and compass.

He plans to issue a brochure, explaining the achievement in detail.

Here is how he said he did it, a method for which he claims he has proof.

"Given the central angle, in circle A, AOB.

"Draw cord BD perpendicular from B to AO.

"On BD construct an equilateral triangle BDE, and on the opposite side the isosceles triangle BDK. Join the remote vertices E and K, the line EK intersecting circumference at C. Then angle AOC is one third of angle AOB."

Murray Questions Farm Board About Loaning of Wheat

OKLAHOMA CITY, Sept. 14.—(P)—Governor Murray asked the federal farm board today "if it is not true" that it loaned 1,000,000 bushels of wheat to one milling company when wheat was 85 cents a bushel and now is taking the company in profiting \$600,000 by the purported transaction.

Murray last week called on the board to show where 250,000,000 bushels of stabilization wheat is stored and said Oklahoma farmers thought the wheat had been loaned to mills and would be replaced by cheap wheat.

SOUTH CAROLINA'S LEGISLATURE MEETS IN COTTON MATTERS

PLANS GO FORWARD FOR
FARMERS' MEETING IN
ATLANTA WEDNESDAY

COLUMBIA, S. C., Sept. 14.—(P)—An extraordinary session of the South Carolina general assembly convened here today to consider measures to relieve the cotton situation.

In his message to both houses, Governor Blackwood urged the special session, the second in the history of the state, to pass a law forbidding the planting of cotton in 1932.

"Our prompt action," he said, "will probably encourage other states that are trembling in the balance of indecision and, insofar as we may know, South Carolina may be the determining factor in this great struggle in the interest of southern agriculture.

The farmers, in accented tones, have said it is their wish that this law be enacted."

Contending that the Long plan, approved by Louisiana, forbidding any planting next year, "is the best plan that has been offered," the chief executive said:

"It appears to me that the complete prohibition plan is the only one."

DALLAS MAN SLAIN WHILE ATTEMPTING ROB PICNIC PARTY

DALLAS, Sept. 14.—(P)—A 46-year-old man who walked into a trap laid by Dallas deputy sheriffs for a robber who preyed on picnickers was head here today.

He was identified as Ed Burden of Dallas.

Deputy Sheriff R. L. "Bob" Alcorn identified him as the man who made an unsuccessful attempt to rob a decoy party near White Rock lake Saturday night. His appearance with a pistol in his hand precipitated a shooting affray in which two pistols and a shotgun were used.

The man was located in a Dallas hospital Saturday night after hours after the shooting. One arm was almost severed by a charge of shot and a pistol bullet had penetrated his body. He died yesterday.

AMERICAN LEGION OPENS WAR AGAINST ECONOMIC DISTRESS

FEDERAL STATE AND CITY
OFFICIALS ATTEND WASHINGTON CONFERENCE

WASHINGTON, Sept. 14.—(P)—James G. Harbord of the Radio Corporation of America today warned the American Legion unemployment conference that it could not approach its national convention in Detroit with a plan of unemployment relief in one hand and requests for additional aid through the bonus in the other.

Harbord, who was chief of staff of the A. E. F., pointed out that the membership of the American Legion constituted two parts of the population of the country. He said that if the Legion took steps to aid directly the estimated 750,000 ex-service men out of work it would render a great service.

Referring to the bonus, he said the Legion could not expect to get anywhere unless it co-ordinated its requests to this end with its unemployment relief program.

Howard F. Savage, chairman of the Legion's employment relief commission, said in reply that when the question of the bonus was presented to the American Legion conference in Detroit next week "a proper answer will result."

(Continued on page 2)

GANDHI ATTENDS FIRST SESSION OF DELEGATES MONDAY

LONDON, Sept. 14.—(P)—The Mahatma M. K. Gandhi, carrying a bottle of goat's milk for his meal, went to St. James palace before noon today to attend as a silent observer the first meeting of the federal structures committee formed to draw up a new constitution for India.

Pledged not to talk, because Monday is his "day of silence," he was driven to the palace in a small closed car along with Mrs. Sarojini Naidu and her secretary. He was wearing his customary loincloth and shawl, for the sun was shining brightly and it was a related summer day.

As he drove into the grounds police rushed to keep photographers and a crowd of the curious away. He was escorted up the red carpeted stairs to the conference room by Mrs. Naidu.

Although Gandhi usually sits on his haunches, today he took a chair just as other delegates. Lacking his spinning wheel, he sat at the table twiddling his thumbs and picking his finger-nails as he thought about the rule of silence strictly, and slipping goat's milk at intervals from an American made vacuum bottle.

A large group of police were stationed across the street from the palace behind a wall ready for immediate action if necessary. They were rough and ready with those who tried to crowd in upon the delegates as they arrived and pushed them away from the entrance.

Gandhi had a place of honor at the conference table to the left of Lord Sankey, chairman of the committee, with Pandit Malaviya on his right side. On Lord Sankey's right was Sir Samuel Hoare, new secretary of state for India. The meeting was held in a small room between Queen Anne's drawing room and the throne room.

COUNTY COMMISSIONERS HEAR PLEAS FOR RETENTION FARM DEMONSTRATION AGENTS HERE

Cancellation of bonds in the sum of \$120,000 outstanding the Purdon Road District No. 2, and all favored the cancellation of the outstanding bonds. There were \$135,000 road bonds voted in that district in 1928. The bonds were attacked in litigation brought by the local district court and \$15,000 were voided and \$120,000 were validated. The commissioners' court attempted to sell the bonds on a number of occasions, but could not sell them. The motion for the cancellation of the bonds was made by Commissioner J. W. Harris of Blooming Grove and was seconded by Commissioner George W. Boyd of Corsicana. J. M. Tullio, county auditor, was authorized to refund the citizens of that district the amounts they were entitled to, and he said he would issue bonds about Friday or Saturday of this week. A petition for a hearing was presented the court on Sept. 1, and a hearing was ordered. No dissenting votes were cast on the cancellation order.

It was stated that property owners bring their tax receipts to the county auditors' office for their refunds. Clay Nash, county judge, suggested to the Purdon district people to take the refunds and pay their current taxes.

Received Many Letters. In opening the discussion relation to the cancellation of bonds, citizens from Purdon Road District No. 2, and all favored the cancellation of the outstanding bonds. There were \$135,000 road bonds voted in that district in 1928. The bonds were attacked in litigation brought by the local district court and \$15,000 were voided and \$120,000 were validated. TWO THEORIES IN PIRATICAL ATTACK ON CABIN CRUISER

MADMAN OR ACQUAINTANCE
OF MISSING ENGINEER IS
BELIEVED INVOLVED

MINEOLA, N. Y., Sept. 14.—(P) District Attorney Blue of Suffolk county announced today he would take Mrs. Benjamin P. Collings aboard the yacht from which she said her husband was thrown overboard by two men and vigorously cross-examine her because he believed she was telling the truth.

Blue added that he believed his county has jurisdiction in the matter. He was to be accompanied aboard the yacht by District Attorney Elwin N. Edwards of Nassau county, who has announced that he believes Mrs. Collings' story.

Meanwhile, Edwards announced that stains found on the body of the missing engineer, believed mad by blood, had been sent to Dr. Schultz, medical examiner of Nassau county, who expected to have his report ready sometime tomorrow.

It was understood Edwards planned to take the Schultz report and other evidence before a grand jury tomorrow and obtain John Doe murder warrants against the power of the investigators might be strengthened.

Nassau county officers, making another search of the Penguin today, found a pair of oars in the trunk.

(Continued on Page 2)

PASSENGERS AND CREW OF PANAMA LINER RESCUED AS VESSEL RUNS UPON REEF

SAN PEDRO, Calif., Sept. 14.—(P)—Abandoned by her passengers and crew and battered by heavy seas, the Panama mail liner Colombia today lay on the rocky reef of Santa Margarita Island 670 miles south of here off the Lower California coast.

All of 130 passengers and crew of 100 were aboard the United Fruit company's liner La Perla, due to arrive at Los Angeles harbor Wednesday. Their rescue in the early hours of yesterday morning was related today in radio messages which paid tribute to the heroism of the officers, crew and men passengers.

Bertin E. Moisant, a passenger from El Salvador, radioed a description of the scene on the darkened decks of the Colombia while passengers prepared to take to the life boats. It said:

"There was no panic, no hysteria to be noted. This was averted by common sense on the part of the officers and by precise and stern orders at the same time. Never has it been our lot to see men show a finer example of coolness and this applies to both officers and men."

The wrecking of the Colombia a few minutes before midnight Saturday was the third accident in which she had figured in the last seven years.

BITTER FACTIONS PREPARE SHOWDOWN COTTON QUESTION

TWO PLANS PRESENTED—
COMPLETE PROHIBITION
AND CURTAILMENT

AUSTIN, Sept. 14.—(P)—Antagonists in the fight to decide whether Texas should prohibit cotton planting in 1932 or merely reduce cotton acreage met on the floor of the house of representatives today, as debate began on various cotton relief proposals.

A vote was not expected before late today or tomorrow.

The senate failed to start discussion of two bills reported Saturday by its agricultural committee, on embodying the cotton prohibition plan for 1932, championed by Governor Huey P. Long of Louisiana and the other being similar to an acreage reduction bill reported favorably in the house.

Senators apparently wished to see the outcome of the battle in the house between cotton prohibitionists and reductionists.

After a special sub-committee reported favorably on the house bill by Representative J. O. Olson to limit acreage in 1932 and 1933 to not more than one-third the cultivated acreage, two amendments were offered. One would reduce this figure to 25 per cent and the other would increase it to 50 per cent.

Considerable sentiment prevailed in the house for the plan to restrict acreage to one-fourth the cultivated area. The proposal had the support of J. E. McDonald, Texas agricultural commissioner, and Representative Lawrence Westbrook, chairman of the house agricultural committee.

Would Compromise. The amendment to limit cotton acreage to 25 per cent of the cultivated area was held out as a compromise between the faction seeking a one-third reduction and the group demanding cotton prohibition next year.

Adherents of the plan of Governor Long for cotton prohibition in 1932 were prepared to offer this program as a substitute for the reduction measure and, falling in this, to offer an amendment embodying the principles of the Long plan for 1932 and a reduction of 50 per cent in 1933 and 1934.

The senate adopted a resolution asking the governor to make the subject of exempting producers and retailers of farm products.

(Continued on Page 5)

INDICATED LONG NO-COTTON PLAN DOOMED IN TEXAS

PASSAGE OF ACREAGE REDUCTION LAW PREDICTED IN SHORT TIME

AUSTIN, Sept. 14.—(P)—Unless a pronounced shift of sentiment develops the "no 1932 cotton" plan of Governor Huey P. Long of Louisiana was doomed, observers agreed here today as the Texas legislature prepared to open debate on emergency measures designed to cure over-production in Texas would seal the fate of the Long program because one-third of the nation's cotton is raised in this state. The Long plan provided that it would go into effect unless states producing three-fourths of the cotton adopted the holiday.

Acreage Reduction Plan. Passage of an acreage reduction plan within the next 48 hours was general forecast. Among of certain though a bloc advocating reduction of acreage to not more than one-third of the cultivated area for 1932 appeared strongest now.

Advocates of the one-third plan were predicting that the Long plan would be defeated two to one and that they would be able to block the bill for a greater reduction by a smaller majority. A bloc favoring reduction of acreage to 25 per cent possessed considerable strength and a sharp

CORSICANA STARTS THIRD WEEK'S TRAINING MONDAY AFTERNOON

TEXAS LEAGUE SEASON FOR 1931 ENDED WITH GAMES PLAYED SUNDAY

SEASON BE OPENED
FRIDAY NIGHT WITH
HIGHLAND ELEVEN

LARGE CROWD IS EXPECTED
TO SEE GAME IN FAIR
PARK STADIUM

Corsicana's bid for class 'A' gridiron honors will be inaugurated Friday night on Fair Park Stadium field by the Corsicana Tigers against Nick Dobbs' Highland Park gridsters in what promises to be a combat struggle going many miles to see; a struggle between two aggregations of fighting and stalwart grid performers; both of whom desire to start off the season with a victory; and both bent on being heard from in the approaching race in the inter-scholastic league.

Highland Park has the best team in the history of that institution. This fact is admitted by the school officials of Highland Park and by the sport writers of the North Texas metropolis who have seen the Highlanders in action. The club went to the district finals last year, and has been considerably strengthened this year by the addition of a number of promising and proven transfers. Nick Dobbs is recognized as a mentor of ability, and he has had his club at a camp for several weeks getting the boys in the best of condition.

Bengals Strong. Corsicana went to the semi-finals of the state race last year, and the Tiger mentors are anxious for another leader this year. With a nucleus of eight lettermen and with thirty squadmen from last season, the trio of coaches have sent their charges through strenuous practice sessions for the past two weeks, and from all indications will place a well-drilled and competitive club under the area Friday evening.

It is a recognized fact that the Tigers are one of the best drawing cards in the country—presenting attacks and aerial offenses in some of the greatest individual performers in inter-scholastic league circles, and a huge crowd is anticipated.

The Tigers will have plenty of competition in Friday night's melee. The sport writers of Dallas and elsewhere are confident that the Corsicana team will be the one to win the championship. The Corsicana team is expected to be the one to win the championship. The Corsicana team is expected to be the one to win the championship.

Corsicana's starting lineup will be minus the backfield. The Corsicana team is expected to be the one to win the championship. The Corsicana team is expected to be the one to win the championship.

The coaches have remarked about the spirit of the boys. The Corsicana team is expected to be the one to win the championship. The Corsicana team is expected to be the one to win the championship.

Other Contests. Corsicana's three high schools will swing into action this weekend with the "unofficial" district 14-B championship game. Corsicana is expected to be the one to win the championship.

The game between the Odd Fellows and Mexia has been advertised as the "unofficial" district 14-B championship game. Corsicana is expected to be the one to win the championship.

CUBS BUY ABE MILLER. CHICAGO, Sept. 14.—(AP)—The Cubs have purchased Abe Miller, a 23-year-old, 175-pound right-handed pitcher from the Shreveport, La. club of the Texas League. He will report next spring.

Most Talented of Tournays

By HARDIN BURNLEY

"WIFFY" COX

TOMMY ARMOUR--DEFENDING CHAMP.

WALTER HAGEN

BILLY BURKE
"OPEN CHAMP"

LEO DIEGEL
WATCH HIM!

AFTER THE P.G.A. TITLE THIS WEEK.

OLYMPIC and national track and field meets possibly excepted, the most truly important of all tournaments starts at Providence, R. I., today when the American Professional Golfers' Association opens its annual championship. Few outdoor games boast more real masters than golf and nearly all such are pros.

Amateur golf has had the incomparable Bobby Jones and his history full of scores of other great players. But for the most part, the amateurs have been fully a dozen equally skilled pros. Yes, Providence will have a field, for example, that outclasses the talent which played for

national amateur honors at Chicago, recently. There will be Tommy Armour, defending P. G. A. champion, who won the British Open last Spring. True, an amateur prodigy, 18-year-old Chas. Kocik, defeated the veteran Tommy in a Michigan Open playoff match last August but that probably was a flash. Homer Hodge and even Armour can lose occasionally to an inspired amateur. But not often when it means money to the pro. If Tommy is in characteristic form, he should retain that P. G. A. title.

Armour's closest rival (among fully a dozen likely winners) would seem to be Leo Diegel, who played Jones-like golf when qualifying for the P. G. A. in the New

York metropolitan area. The "Eagle" fairly flew over the course on that occasion, dropping birdies everywhere. And he was closely pursued by "Wiffy" Cox, the Dan Parker of Brooklyn, N. Y., links.

Cox, too, will be shooting at Providence; also Billy Burke, National Open champion; Gene Sarazen, Johnny Farrell, Horton Smith, Ed Dudley, and at least four-fifths of the rest of our top-flight pro talent. And, of course, Sir Walter Hagen, hitting the comeback trail, will be there.

If the weather be reasonably fair, Providence should be the scene of 1931's most brilliant golf play this week.

THREE DIFFERENT ANSWERS ON NOTRE DAME GRID TEAM BY SUCCESSORS OF ROCKNE

By PAUL MICKELSON Associated Press Sports Writer. SOUTH BEND, Ind., Sept. 14.—(AP)—You can get three different answers by asking Jesse Harper, Hearty Anderson, or Jack Chevigny what kind of a football team Notre Dame will send out this year to take care of the scheduled arranged by the late Knute Rockne.

Harper, who taught Rockne his football, and who has returned to the camp, says the fighting Irish to be athletic director thinks Notre Dame will have a "pretty good team." He is neither optimistic nor pessimistic.

Chevigny, the junior coach, is anything but optimistic. As background coach under Rockne in 1925 and 1926, he developed great attacking forces, and the responsibility of building another one rests with him. He will be most trying in the football history of Notre Dame.

"We have a backfield and substitutes, but you can't replace men with backs," he says. "The O'Connor job will be to stop the famous shift and the repetition of one or two plays until they click in a game, will again be the noticeable feature. The line, led by Captain Tom Yarr, will be made up of such veterans as Paul Hoed and Ed Kosky, ends; Al Sulver and Joe Kurth, tackles; and Nurdy Hoffman, Guard. Returning to the big problem department, the backfield will be Chuck Jaskwich, Carl Cronin, of whom much is expected; Marchy Schwartz, a great star and the only regular from last year; Mike Koken, Nick Lokats, and Dan Hanley if he is eligible.

Rockne's legacy to Harper, Anderson and Chevigny follows: Oct. 2—Indiana at Bloomington. Oct. 10—Northwestern at Soldier Field, Chicago. Oct. 17—Drake at South Bend. Oct. 24—Pittsburgh at South Bend. Oct. 31—Carnegie Tech at Pittsburgh. Nov. 7—Pennsylvania at South Bend. Nov. 14—Navy at Baltimore. Nov. 21—Southern California at South Bend. Nov. 28—Army at New York.

State Home Lads To Be Prepared For Jacket Game

BY LEWIS LEAR. The State Home Lads are getting ready for their combat with the Cleburne Yellow Jackets to be played in Cleburne, Friday, Sept. 18. There is expected to be a good crowd at the game. The Lads are out for revenge this year. Having been defeated the past three years by the Yellow Jackets, the Lads hope that they will be able to push over a win in their game Friday.

The Lads seem to have one of the best and fastest teams that they have had for a number of years. Their backfield men have plenty of speed and can "vote" the pigskin well. The men who are going to do the heavy work in the backfield for the Lads this year are: Bowman Knott, Alvis Turpin, Eddie Johnson, Charlie Oliver and Allen Richards. These are the men who did most of the ball carrying for the Lads last year.

Coach Crabtree has been giving the team heavy workouts every afternoon in order to get them in shape for their tussle with the Yellow Jackets.

DIXIE SERIES TO GET UNDER WAY IN BIRMINGHAM SOON

BIRMINGHAM, Ala., Sept. 14.—(AP)—A practice game today with a team of all-stars will complete training of the Birmingham Barons for the Dixie Series battle with Houston, winners of the 1931 Texas league pennant.

Tomorrow will be a day of rest and the Dixie series will get under way Wednesday.

The two teams also will play here Thursday and then go to Houston for three games on Saturday night, Sunday and Monday night.

Advances indications point to the veteran Ray Caldwell of the Barons facing Dizzy Dean of the Buffs in the series opener. Birmingham baseball officials estimate today that every seat will be sold for the opening game which would mean an attendance of more than 15,000.

Walter French, Little Rock center fielder, probably will play center field for the Barons, substituting for the injured C. U. stadium for a short while and all of the forty frogs.

Jewett Gridsters to Play Eleven Contests

MEXIA, Sept. 12.—(Sp.)—Eleven games have been booked by the Jewett high school, Leon County school, for the football race of District 14-B. A schedule published here shows that Manford E. Jones, superintendent of the Jewett school, lists the three home games, and plays the same home four times.

The schedule follows: Sept. 18—Jewett vs. Normangee at Centerville. Sept. 25—Jewett at Thornton. Oct. 2—Bromont at Jewett. Oct. 9—Jewett at Teague. Oct. 16—Jewett at Kosse. Oct. 23—Jewett at Mexia. Oct. 30—Jewett at Bremond. Nov. 6—Thornton at Jewett. Nov. 13—Marquez at Jewett. Nov. 20—Jewett at Normangee. Nov. 27—Jewett at Marquez.

HOUSTON BUFFS WIN FIRST AND SECOND HALF OF SEASON

LEAGUE CHAMPIONS ENDED SEASON WITH COUPLE OF SHUTOUTS OVER INDIANS

(By The Associated Press.) The grand finale was held in the Texas league yesterday. The curtain rang down on the 1931 pennant marathon with the Houston Buffs first half, second half and whole season, winner. The Texas league champions closed their schedule with shutouts. They defeated the San Antonio Indians, 12 to 0 and 6 to 0. Elmer Hanson and George Payne blanked the Indians in the first game. Pistol Pete Fowler and Charlie Breeden whitewashed the Redskins in the second.

Celebrating Ray Radcliff's special day, the Shreveport Sports closed with a 5 to 0 decision over Port Worth Radcliff, 1931 Texas league batting champion, hit a triple and a single to bat in two runs.

The Dallas Steers lost a double-header to Wichita Falls, 6 to 5 and 16 to 11. Dallas got fifteen hits in the first game but could score only five runs. Both were swiftest affairs.

The double defeat cost Dallas second place in the second half. Since Beaumont defeated Galveston, 9 to 8. The Exporters moved into second place. Houston will represent the Texas league in the Dixie series against Birmingham champions of the Southern Association.

SOUTHWEST GRID MENTORS RESUME GRIND ON MONDAY

DALLAS, Sept. 14.—(AP)—The process of moulding grid units into formidable football teams was renewed in the seventh southwest conference training camps today.

Into their second week of the training and with all preliminary practices behind them, candidates for the championship are beginning to show their mettle. The proving ground. For two squads, the Rice Institute Owls and the Texas Christian University Horned Frogs, the week's schedule will vary to include initial games of the season.

The Frogs are billed with the Texas Military college eleven Friday and the North Texas Teachers college Eagles of Denton Saturday. Simmons University, Abilene; Trinity university, Waco; Southwestern university, Georgetown; Austin college, Austin; promises one of the best football races in Texas this season.

Howard Payne won the championship in 1928, 1929 and 1930. This will be the eighth regular through graduation, and that means Coach Joe Bailey Cheaney will have to work hard to retain the conference crown for his school. Simmons College, Trinity, Texas, are outstanding as championship contenders.

Experienced Eleven To Defend Texas' 1930 Southwest Title

BY BILL PARKER (Associated Press Sports Writer.)

ASUTIN, Sept. 12.—(AP)—A backfield with weight, experience, power and deception. A front wall fortified by 1930 all-conference selections. Redoubtable reserve material. That is the football situation of the University of Texas, but still Coach Clyde Littlefield refuses to be optimistic as his last year Southwest conference championship. It is Littlefield's system, and he will stick to it again this year. A passing game, to use when opponents secondary play in too close trying to stop line smashes, will be Littlefield's aerial threat.

Littlefield believes his hardest conference games will be against Southern Methodist, Texas Christian and Rice. "I do not think our inter-scholastic games with Harvard, Oklahoma, Missouri and Kansas will hurt us unless we suffer injuries to men like Koy, Stafford, Blanton or Elkins. We will take each game as it comes, inter-scholastic or conference.

"I do not think our inter-scholastic games with Harvard, Oklahoma, Missouri and Kansas will hurt us unless we suffer injuries to men like Koy, Stafford, Blanton or Elkins. We will take each game as it comes, inter-scholastic or conference.

Howard Payne is again doped lead Texas conference. Three T. I. M. E. champions lost eight regulars from 1930 eleven.

DALLAS, Sept. 12.—(AP)—Having dominated the Texas conference the last three years, the Howard Payne Yellowjackets appear to be strong enough for another real chance at the title.

At Texas conference, composed of Howard Payne, Abilene; Simmons university, Abilene; Trinity university, Waco; Southwestern university, Georgetown; Austin college, Austin; promises one of the best football races in Texas this season.

Howard Payne won the championship in 1928, 1929 and 1930. This will be the eighth regular through graduation, and that means Coach Joe Bailey Cheaney will have to work hard to retain the conference crown for his school. Simmons College, Trinity, Texas, are outstanding as championship contenders.

Howard Payne is again doped lead Texas conference. Three T. I. M. E. champions lost eight regulars from 1930 eleven.

TWO WINS AND TWO TIED GAMES REWARD FOR HUSTLING SOX

BY HUGH S. FULLERTON, JR. (Associated Press Sports Writer.)

The American League has teams that are better than the Chicago White Sox and a few that are even less, successful, but there is none to dispute the Sox claim of working harder than any other team for victories.

Chicago played four games on Saturday and Sunday, struggling through 46 innings, and the best they could get out of it was two. The Sox played a hard extra in each doubleheader, ended in a tie relief pitching, then won 14 Yankees in 13 innings Saturday, they planned a ten-inning, 13-1 tie before darkness stopped them.

Yesterday Chicago downed the Boston Red Sox 6 to 5 in the opener behind Red Faber's effective relief pitching, then won 14 frames to a 2-2 draw. The Sox purchased Sunday's lawfully halted the struggle. Pat Caraway, who took over the mound job in the ninth, had a narrow escape when he filled the bases in the final inning but managed to retire the side.

The New York Yankees come closer than any other team to threatening Chicago's long distance record. After the two overtime battles with the White Sox, the Yankees played a hard extra in yesterday's doubleheader, going twelve frames to 2 to 1. Homers by Combs and Alexander produced the only runs off George. This and Vernon Gomez in the regular time, with Elton Hoggsett pitching for Detroit in the twelfth, Tony Lizerzer cleared third on a walk, a steal and an error, then made a clean steal of home for the winning run.

Gehrige Gets 43rd. You Gehrige 43rd homer of the season made it possible for the Yankees to win the second game in nine innings, 4 to 3. The homer one of four hits off Earl Whitehill, came with one in the sixth and provided the winning runs.

Alvin Crowder triumphed over the Cleveland Indians in the remaining American league game. Crowder allowed Cleveland only six hits and made three himself to lead the Yankees to a 3-2 victory.

Chicago's Cubs provided the program of the National league big haul, although the St. Louis Cardinals took another step toward winning the pennant. The Cubs won their first game in the sixth inning, 1 to 0, when Manager Rogers Hornsby went in as a pinch hitter in the seventh inning. The Cubs won the game in five straight victories that established the Cubs firmly in third place when he pitched his second one-hit game of the year to win the series.

On the second game New York Giants, making their margin in the series, won 2 to 1 behind the brilliant pitching of Paul Derringer and Bill Hallahan. Each pitcher recorded his 17th victory of the season. Derringer allowed only six hits and made three himself to lead the Yankees to a 3-2 victory.

MANAGER PHELAN FORT WORTH CATS IS GIVEN RELEASE

BY HUGH S. FULLERTON, JR. (Associated Press Sports Writer.)

OUTRIGHT release of Art Phelan, manager of the Fort Worth Texas league club during the season just closed was announced here this morning by Ted Robinson, president of the Fort Worth baseball club.

The release of Ed Brown, first baseman, and Frank Meyer, catcher, was also announced. The reason of Howard Fitzgerald, outfielder, was in connection with the American association, was also made known. Robinson also announced the purchase of Alex Hooks, former Southern Methodist university star, who was released by the club.

Phelan came here from Shreveport. He played with the Cats back in 1921-1922. Robinson said that his successor for next season had not been elected and that it would probably be several days before a manager was chosen. Phelan has made no definite plans for the future, he said.

Sun want ads get results.

Hubbard Will Not Be Represented on Grid During This Season

HUBBARD, Sept. 12.—Hubbard High School officials have declared "football holiday" to extend at least one school year. Financial, lack of material, playing field, and lack of support by local citizens were given as some of the reasons.

In former years, Hubbard had one of the strongest clubs in the Central Texas area, but during the past few years, the team has not been a winner.

When Any outsider gets hard up for money they impose "get rich quick" schemes upon the public under the guise of advertising, with no idea of giving service, distribution, prestige, nor value. Investigate and interrogate carefully such impostors.

RAIL COMMISSION TIGHTENED EAST TEXAS PRORATION

NOT MORE THAN ONE WELL WILL BE PERMITTED ON TWENTY ACRES

AUSTIN, Sept. 11.—(P)—

The Texas railroad commission tightened its East Texas oil field proration order today in an attempt to curtail drilling, announcing that after noon Tuesday not more than one well could be drilled on each 20 acres.

Proration in East Texas had been on a five well basis, the allowance being 225 barrels per well. Opponents claimed that such an order tended to increase production through stimulation drilling.

The amendment to the order follows:

"After 12:01 p. m., Tuesday, September 15, not more than one well to each 20 acres of surface ownership shall be drilled in said field, and the order shall be enforcing this order the deputy supervisor in charge of said field shall divide the same into 20-acre tracts and in doing so shall make subdivision in such a manner that the said 20-acre tracts shall not have length in excess of twice the width thereof."

"Such 20-acre tracts shall be known as units and shall be divided into such manner as to create more than one fractional unit and units and fractional units shall be calculated upon the basis of ownership as of the date hereof. "New productive areas shall be divided into units and fractional units as the field may be extended. Fractional units shall be created only in case there shall be insufficient acreage in the lease or property of which the fractional unit is a part to create a full unit. Non-contiguous leases or properties shall be treated as separate units for the purpose of forming units and fractional units. "For the purpose of the limitation of drilling provided herein, each fractional unit shall be considered a full unit. The distances covering the spacing of wells provided for in the modification of rule 37 as amended for the purpose of application of the field shall be considered minima, subject, however, to the granting of exception as provided for in this paragraph as originally adopted. "The limitation of one well to each full unit or fractional unit as provided for herein shall not apply to units where more than one well has already been begun or where there are offset wells already begun or completed. "The modified rule 37 provides that wells must be drilled at least 330 feet from a property line and that they must be at least 660 feet apart."

Opponents of the original order claimed a man would drill his wells too close together so as to get a higher allowable production.

East Texas Field

Production Soaring

KILGORE, Sept. 11.—(P)—Check on East Texas' steadily increasing flow of oil under the state railroad commission's new curtailment program last night showed that the production was running over the 400,000 barrel mark. Reports from Brig. Gen. Jacob F. Walter placed Wednesday's production figures for 1932 wells at 407,124 barrels.

Meantime Governor Ross S. Sterling, who invoked martial law in the area Aug. 17 when the field ran rampant, frowned upon the steadily mounting production figures and indicated it was not his desire to see the field flow in excess of 400,000 barrels.

C. V. Terrell, railroad commissioner, and R. D. Dyer, chief of the oil and gas division of the railroad commission, left Austin last night for an inspection trip into the East Texas field. They planned to check on the success of the new order and determine if enough force was maintained to properly enforce the commission's mandate.

Both Commissioner Terrell and Dyer emphasized that the law was not taken as a preliminary step to lifting martial law in the field. The daily output of the field was approximately one-half the gigantic flood of oil which preceded the pre-martial law crisis in the field. It was this mounting flood which spurred the state legislature into action and eventually prompted Governor Sterling to place the field under martial law.

Rise in Oil Price
Saved One Company

PITTSBURGH, Sept. 11.—(P)—J. E. Orr, president of the Shamrock Oil & Gas Co., said today that approval given by nearly all of the bondholders of the company to a refinancing plan and the rise in price of East Texas oil had saved the company from liquidation and loss of a portion of its gas properties. Orr said the rise in price of East Texas crude to 72 cents a barrel had made refinancing unnecessary, but the plan was carried out as arranged. All indebtedness has been paid.

CARD OF THANKS

We wish to express our heartfelt thanks to you who assisted so faithfully in caring for our dear wife and mother during her long illness and death. We have no words to express to you our appreciation for the acts of friendship, tokens of sympathy and deeds of loving kindness you manifested to her and us during these trying times.

We earnestly pray that when you are called to go through like troubles you will find friends as loyal and as true to you as you were to us.

R. W. REEVES,
MR. and MRS. J. M. HADDOX,
MR. and MRS. W. J. BARNES,
MR. and MRS. ANNIE LEWIS,
MR. and MRS. A. D. FARMER,
J. GREEN.

Cream Supper

There will be a ice cream supper at Retreat Friday night, Sept. 18th, benefit of the church. Everybody cordially invited.

AMERICAN LEGION DRUM AND BUGLE CORPS

Belize Disaster

Continued from page 1.)
000 lost his life. Hardy's family was not affected by death or injury. Many of them lost all of their possessions and are just beginning to realize the extent of the disaster.

Tropical Storm

Strikes Mexico

MIAMI, Fla., Sept. 14.—(P)—Sweeping westward across the Caribbean Sea, a tropical storm struck inland near Payo Obispo, Quintana Roo, Mexico, today, said a radio message received here by Pan-American Airways. No information was obtained from the message as to the storm's intensity.

R. I. Duntan, Pan-American Airways operations manager here, said his meteorologist had informed him the storm was due to reach the coast of British Honduras about 10 a. m. today. No reports of any damage had been received here by Pan-American Radio or from any other source at 10:30 a. m.

Although the storm was expected to pass inland on the Yucatan Peninsula north of Belize, the Airways company ordered the Miami plane, which left Belize early this morning and was turned back because of bad weather, to proceed to Toluca, Honduras, about 150 miles south of Belize.

The Miami-bound San Salvador plane proceeded only as far as Toluca this morning and the south-bound plane was ordered to leave here this afternoon, was under order to proceed no further than Havana unless weather conditions cleared.

Payo Obispo is about 150 miles north of Belize, where approximately 1,000 persons were killed and enormous property damage caused by another storm that struck there last Thursday. It also is about 350 miles south of Cozumel Island.

A message from Belize stated that a wind velocity of only five miles per hour prevails there today, said the Cozumel report. A wind of 30 to 35 miles an hour, Payo Obispo is a small city of Chetumal Bay on the mouth of the Hondo river.

Hurricane Hits Mazatlan

NOGALES, Ariz., Sept. 14.—(P)—Rain and wind of hurricane proportions swept Mazatlan, one of the largest cities of the west coast of Mexico, today, but no damage was reported.

The storm struck at Hermosillo, capital of Sonora, approximately 600 miles north of Mazatlan. Heavy rain fell at Empalme, Sonora, yesterday and today.

MIAMI, Fla., Sept. 14.—(P)—A second tropical disturbance, said by the weather bureau to be moving toward the Yucatan Peninsula north of Belize, disrupted airplane service between the United States and Central and South America today.

A Pan American Airways plane, which Sunday flew a party of newspaper correspondents and news picture men to Belize, scene of last week's devastating hurricane, attempted unsuccessfully to make its return flight to Miami this morning.

The plane was turned back to Belize by bad weather and the Airways ordered travel over the Yucatan route suspended until the storm threat is over.

Storm Warning

WASHINGTON, Sept. 14.—(P)—The weather bureau today issued the following storm warning: "Advisory 10 a. m., tropical disturbance is central this morning about one hundred miles east-northeast of Belize, moving westward with slowly increasing intensity. It is attended by gales and probably winds of hurricane force near its center, and it will move inland over Northern British Honduras this afternoon."

Belize Survivors

Flee Stricken City

(By Pan American Airways Radio to New York)
BELIZE, British Honduras, Sept. 14.—(P)—Fearing serious conditions in this hurricane-stricken city, and the threat of water shortage and possible epidemic, the natives are fleeing Belize as rapidly as possible.

Diddler Masson, Belize field manager for Pan-American Airways, who has been assisting in relief work and who estimates the death toll at well over 1,000 gives the following description of the flight of the inhabitants: "The Belize river, which was a mass of bodies, houses, wrecked boats and debris for three days, has been partially cleared now and can be navigated by small river craft with expert piloting."

"Where families, or all now left in the families, have been gathering their few bits of personal effects that remained after the storm, are conditioning dust, and are making their perilous way upriver to the little settlements deep in the jungle which were unscathed in the storm."

"They are confident they will be able to live on the natural edibles of the jungle with the meagre supplies of corn flour and other articles they may be able to secure from the tiny colonies along the river banks."

"The blazing sun has been beating down mercilessly. Since practically all of the buildings have had their roofs torn off additional suffering is brought upon the injured who are being treated as they lie in rows on the floors of the roofless houses."

"Masses of sea fish imbedded in pools of liquid mud piled up by

Entering competitive drills at the State American Legion convention in El Paso recently as the youngest organization on parade in experience, the Johnsons-Wiggins Post No. 22 Drum and Bugle corps won third place, coming out ahead of many similar units with many years more experience. Last year, with only five months experience the corps won third place in the state convention in Austin, outpointing in every respect other drum and bugle corps that were present in experience.

Organized about a year and a half ago, with Joel C. Trimble as director, the local corps has appeared in many cities where state and district conventions were held, and have always elicited the highest possible commendation for their drilling ability and attractiveness. Their drills at football games here have also caused widespread favorable comment. At a recent convention of the sixth district, of which Corsicana is a part, the corps was designated as the official drum and bugle corps of the district, and will attend the national convention in Detroit this month in that capacity, with all expenses paid.

The above picture was taken during the recent El Paso convention, in the stadium of one of the high schools of that city. The personnel: Top row, reading left to right—Haines, Frizer, Stevenson, McCleary, Gross, Cruze, Adams, Slowsy, Bennett, Gilcrease, Dozier, Sweetwater, Walker and Trimble. Bottom row, reading left to right: Sheets, Hanes, McCormick, Milam, Finley, Stanley, Franks, Echols, Steele, Hendricks, Carson, McBroome, Ballard, Enslin, Mims, Sawson, Smith, Wilson, Riley and Drum Major McClung.

Cotton Bills

Continued from page 1.)
acts, the provisions of the peddlers' tax which recently became effective.

Another resolution to ask congress to consider cancellation of war debts was referred to the committee on federal relations.

No Three-Fourths Provision
Considerable opposition developed against the Olsen bill when it was disclosed it contained a provision whereby the Texas law would become inoperative if states producing three-fourths of the cotton failed to enact laws calling for similar or greater reductions.

The committee reported it needed to offer a resolution calling for the legislature to convene in special session on Jan. 31, 1932, to repeal the law in the event any of the states was not followed by other states.

While it was generally admitted in the house the Long plan was constitutional, many members doubted if it could be enforced. Westbrook stated it would be necessary to call out the national guard to enforce the Long plan, adding that public sentiment among the farmers would enforce any of the plans calling for restricted acreage.

One-Fourth Plan
The resolution to restrict acreage to one-fourth was offered by Representative Lee Satterwhite of Odessa. The 50 per cent reduction was submitted by Representative J. C. Kennedy of Kosse.

Satterwhite argued the one-third reduction would be enforced. Kennedy argued it would be too restrictive, would demoralize the cotton industry and add to the unemployment.

After a short shut off, debate by moving the previous question was shouted down and it was withdrawn without being put to a vote. A motion was made, however, to limit the debate to one hour.

Members by Rep. A. P. Johnson in an effort to finish debate and get to a vote as quickly as possible.

AUSTIN, Sept. 14.—(P)—Two-bill factions—one seeking prohibition of cotton planting in 1932 and the other only acreage curtailment—prepared for a showdown fight in the house of the Texas legislature today, while the farmers seek action on a resolution, seeking adjournment of the special session at noon Thursday.

The reductionists held the advantage as a special session committee. Representative Johnson began a detailed explanation of the report, which had not yet been accepted by the house as a committee of the whole. Debate was expected to take charge of medical relief, and the plan of Gov. Huey Long of Louisiana for a "cotton holiday" in 1932 expected to attempt substitution of their bill for the Olsen bill.

Representative Phil Sawyer of Nacogdoches introduced the adjournment resolution but action on it was postponed until tomorrow.

The tidal wave are decomposing and the air at times is unbearable.

Claimed Death Toll
Not to Exceed 500

By REX SAFFER
BELIZE, British Honduras, Sept. 14.—(P)—Lieut. Commander T. L. Morrow, U. S. N., who flew here from Managua on Saturday to take charge of medical relief, said today the total known dead from last week's hurricane which laid the city waste did not exceed 500 to date.

These, he said, 300 were burned to death and 50 were carried out to sea as the tidal wave, which followed the hurricane, receded. He denied reports that the known dead thus far are greater than the number, but he said that when more definite information is available, the figure might be doubled.

Anti-typhoid serum is badly needed, he said, although two boxes of anti-typhoid and anti-tetanus serum had arrived by airplane from Havana. He also needs more bandages to care for the wounded, which thus far have not been counted.

Commander Morrow and a staff of 300 doctors so far have treated 230 wounded persons. There were several amputations but for the most part of the operations were superficial.

U. S. Consul Taggart, who was seriously hurt, has been sent to Toluca.

TEAGUE GIVE WEDS.
TEAGUE, Sept. 14.—(P)—C. E. Redman of Tyler and Miss Nina Oia Cox of Eagle were married at the Baptist parsonage on Saturday, with Rev. E. H. Toney, pastor, officiating. The young couple will make their home in Tyler.

Richland-Wortham
Highway Bids Leave
Out Part of Road

Bids for the oil treatment and concrete pavement on State Highway 14 from Richland to the Freestone-Navarro county line near Wortham will be asked for by the state highway commission today, Sept. 21, according to information received here this week by County Judge Clay Nash. This is a distance of 8,036 miles.

Local road emulsion move had the entire distance from Richland to the Freestone-Limestone pavement south of Wortham would be awarded but the advertising for bids has omitted that section of Freestone county in the vicinity of Wortham.

Hamilton-Beeman
Association to Have
General Picnic Meet

Hamilton-Beeman Memorial association will have a general meeting and picnic at Pleasant Grove, three miles southwest of Corsicana on Saturday, Sept. 19. All who are interested in Hamilton cemetery are urged to be present as questions of importance will be discussed.

Local road emulsion move had the entire distance from Richland to the Freestone-Limestone pavement south of Wortham would be awarded but the advertising for bids has omitted that section of Freestone county in the vicinity of Wortham.

Ice Cream Supper
There will be an ice cream supper at Corbett next Saturday night, Sept. 19th, benefit of the church. Everybody invited.

Commissioners

(Continued From Page 1.)

tive to the discontinuance of the home demonstration agents in Navarro county, Judge Nash said that numerous letters and petitions have been received against the recent vote for discontinuance of the service.

J. J. Bryant, Roane spokesman, said the vote for discontinuance of the service was the beginning of his remarks that he felt the court didn't realize the good work done by the extension service and agents. He said the county agent was the first to start the agitation for terracing of the lands in a conservation program, and estimated the work done during the past ten years had been worth at least \$250,000 to Navarro county farmers.

He outlined the various calls for help by the farmers on the county agent's office, including increasing poultry production, fruit growing, spraying trees, fighting insects, caring for hogs, cows, horses, etc. He said many farmers had come to rely on the county agents and they needed their leadership.

Mr. Bryant said all realized that right economy was necessary and the people must live at home during present times. He said many who had never used the agents' services before were using them now.

"This is a most inopportune time to discontinue the agents," he said.

Mr. Bryant said the extension work was the saving of Texas A. & M. College to those who could not go to A. & M. to learn the better methods. He referred to the thousands of acres of native peaches which have been ruined in the county. He said the home demonstration agent was as valuable as the farm agent, and outlined the work in the farm homes in the canning of food, and other commodities, the creating of an interest and desire in the work by the farmers' families, etc., in sewing, yard improvement, and the making of home furnishings.

The agents help educate those who need and appreciate it, he continued.

Mr. Bryant said the people wanted to help the commissioners' court find a way to keep the agents, and suggested if it was necessary, salaries could be reduced.

Mrs. J. S. Callcutt of Corsicana spoke of the present depression and the necessity of living at home. She said she had been keeping all four of the agents. (Applause.)

She said the farmers could get nothing for their cotton or wheat if they could not get a market, and suggested the starting cut at the top and come down the line of officials. (Applause.)

Mrs. W. A. Dobbins of Zion's spoke of the present depression and the necessity of living at home. She said she had been keeping all four of the agents. (Applause.)

Shower Honoring

Kerens Bride-Elect

Given on Wednesday

The following article taken from the Kerens Tribune will be of interest as both parties are well known here:

"Mesdames P. H. Brister, E. H. Norton, George Hemphill and John Sims entertained at the home of the bride, Wednesday, Sept. 8, with a miscellaneous shower honoring Miss Thelma Crowley, bride-elect of Bernard McCord. Beautiful garden flowers of various hues and crepe paper in rainbow colors decorated the spacious living room. The dinner table, laid in lace, had for its center a huge bowl of pink and orchid periwinkles."

"While Mrs. Willie Hines softly played 'Here Comes the Bride,' 14 girls dressed as bridesmaids in organdy dresses of rainbow color descended the stairs, followed by the bride, who was attended by Miss Dixie Ford Smith. The bride, beautifully gowned in a brown canton frock with accessories to match, was led to the appointed bride's chair."

"For the program, Miss Horton Sims read 'He and I' and Miss Dorothy Hall sang 'The Blue Bird.' The 'Musical Love Story' which followed great joyous music and an interesting making was displayed and no one was able to give all the correct answers."

"Delicious punch and cakes were served to 85 guests and these toasts were given: To the bride, Dorothy Sherrill; to the groom, Lois Hixon; to the bride's left hand, Katherine McClure; to the groom's left hand, the girls left behind, Maud Jennings. After a clever reading, Little Melba Sue Mills led the bride to the end of the rainbow where she found her treasure chest and in fact an entire room filled with beautiful and useful gifts. Misses Dixie Ford Smith and Elizabeth McCluney, accompanied by Katherine Ivey, furnished music throughout the evening."

Motion to rescind the previous order discontinuing the agents Oct. 1, but his motion was not seconded.

Commissioner Harris said he would not vote for the order of discontinuance before had he not understood Mr. Orr to say the remainder of the contract would not be claimed. Mr. Orr said he did not understand Mr. Harris' statement and for that reason came back the following week before the commissioners to make his petition clear. Mr. Orr said he knew Mr. Harris misunderstood him, and that he (Orr) could not continue one of those contracts.

No Tax Hike
Commissioner George Boyd said he also understood Mr. Orr to say it would be all right to continue the agents, and he made a motion that before the tax rate would be raised to meet the salaries of the demonstrators until December at least, the salaries of the county commissioners be cut \$50 per month. "I won't raise the tax rate," Mr. Boyd declared.

Mr. Orr said the demonstrators would take reduction in salary. Commissioner J. O. Sessions said he questioned the passing of the discontinuance of the services in view of the contract at the time. He declared he wanted to help the demonstrators in anything that could be done.

County Judge Nash explained the salaries of a majority of the county officials was set by a state law and that there was no way of changing the commissioners' court would do about them. He explained how the taxes and funds for the various departments were levied, etc. Some citizens asked whether the county had a man who drove over the roads inspecting the roads and bridges instead of the commissioners doing that work themselves. Commissioner Boyd said he had Rod Kenner as bridge man who looked after repairing bridges, etc. Commissioner Sessions said he cut expenses in his precinct Jan. 1, 1931, and had nine men working at the present time, eight on grade out-fits and one bridge man.

Commissioner Sawyer invited the people to return to the court Monday afternoon to hear the law and other bills read and paid, and said the records were open to all of the people to look at them any time they saw fit.

JUST FOLKS

TWO SENTIMENTALISTS

He was a sentimental man. He'd

often shed a tear

When someone came and poured

a tale of sorrow in his ear

And wiping dry his misty eyes

he'd say: "I wish I knew

A way to end your misery, but

nothing can I do."

His neighbor was a hardened case

and gruff as gruff could be.

He never shed a misty tear, any-

one could see

He mocked and jibed at senti-

ment and sneered at people

good

But if a poor man needed them

he'd lend him coal and wood.

The sentimental man disliked to

look of scenes of woe

He'd talk of wrongs men ought

to right, but never strike a

blow

The rough and tough old cus-

tomer who lacked the art of

speech

Befriended every weaker man who

stepped within his reach.

I do not think I'm fit to judge

man's conduct on this earth.

I know it's very difficult to val-

ue human worth

I merely note this difference

twixt two men, wide apart.

The one had pity on his lips—the

other in his heart.

REL. SEPT. 14.

(Copyright 1931, Edgar A. Guest.)

UPHOLDING TRADITIONS

Since the beginning of

time philosophers have been

propheying the doom of

civilization and evil days for

mankind. Though each new

civilization has been nobler

than the last, there have

been gloomy sages to fore-

tell the coming of dire

things.

That distinguished Brit-

ish scientist, Bertrand Rus-

sell, is upholding this phil-

osophical tradition at the

present time. He is pre-

pared to anticipate a "eu-

genic state" within the pres-

ent century and a "dictator-

ship of second-rate sci-

entists" who will make life

miserable for most of their

victims. Paternal affections,

the institution of marriage

and the phenomenon of po-

litics will all succumb to the

rule of physiologists and bi-

ochemists. Only five per-

cent of men and 25 per cent

of the women will be per-

mitted the responsibilities

of parenthood, and they

will have no care of their

offspring. "Politically mind-

ed scientists and scientific-

ally minded politicians will

employ eugenics as an anti-

dote to democracy."

Forgetful of the fact

that humanity has escaped a

worse fate many times in

the past, the despondent

philosopher allows it a bare

chance to wriggle out of the

destiny indicated by its

present mood and mental-

ity. But that is the only

chance humanity asks. It has

come through many times

when the philosophers held

not the slightest ray of

hope.

Like Cassandra, Russell is

propheying evil but finding

nobody to believe him. And

man does as man thinks.

CROSSING BY AIR.

While Pangborn and

Herndon were begging Ja-

pan for permission to hop

off from that country to the

United States, Colonel Lind-

bergh, vacationing in Ja-

pan, was describing such a

flight as a risky adventure

that would not prove the

commercial practicability of

the course they would fol-

low.

About the same time Capt.

Wolfgang von Gronau was

explaining that the fogs, ice

and long ocean jumps would

make the Iceland, Green-

land and Labrador air route

between the United States

and Europe unsuitable for

passenger and mail air ser-

vice for a long time to

come.

Here are two expressions

of expert but conservative

opinion that will bear more

weight with the public than

the successful completion of

several non-stop flights

over the very routes dis-

cussed. Even the air-mind-

ed landlubber will do his

crossing by boat until such

men as Lindbergh and Gron-

au tell them the flying is

safe.

The enthusiasm of a few

fliers who jump from contin-

ent to continent without

stumbling doesn't make

transoceanic air routes com-

mercially practical. The air

passenger wants a higher

average of safety than has

prevailed thus far in acean

flying.

This lack of conviction

does not mean, however,

that the general public is

skeptical that transoceanic

air routes are a thing of the

future. Probably most

Americans believe they will

live to see the day when air-

ships will compete with

ocean liners. Their only

doubt is that aviation is now

ready for it.

Two Reapers

527

INCENTIVE.

Necessity is not only the

mother of invention, but the

developer of muscle, heath

and athletic prowess. Oft-

en it is the weak, sickly

low who becomes the crack

athlete, the Olympian won-

der.

Coaches, speaking out of

wide knowledge, give great

encouragement to the fel-

low who is conscious of be-

ing outpointed in every di-

rection by rivals who are as

big and as strong as an ox.

They have seen, undersized

youngsters come to the

front in every department

of sport.

The undersized, under-

weight boy goes at the

game of athletics with a

will, and finds that the se-

cret lies in the ability of

muscles to respond, and to

cover the frame, big or lit-

tle, with a multitude of

wires of steel that can be

used for tasks more form-

idable than their possessors

ever dreamed before he be-

gan his training.

The wide interest of youth

in all forms of athletic en-

deavor is the secret of the

decline in the number of the

maladies of the middle-

aged. If the one-time well-

developed athlete would

keep up his exercise instead

of getting soft and fleshy,

he would find that the

health he acquired along

with strength would serve

him well later in life.

Football is a dangerous

game—each season witness-

ing a number of fatalities

and many broken bones—

but it more than comen-

sates for these by turning

out thousands of strong

healthy boys.

It is all very odd.

THE NATIONAL DANGER

Social legislation and war

debts have brought Eng-

land and Germany as close

to national bankruptcy as it

is possible to get without

falling in. In fact, the re-

cent foreign credits alone

saved Germany.

No American can know

the history of the German

and British crises without

wondering if the United

States is headed in the same

direction. To be sure there

is no immediate danger, but

are not the factors at work

here which are responsible

for the financial troubles of

those two sister nations?

Social legislation has

been adding hundreds of

millions of dollars to the

federal budget. It is re-

sponsible for the present

deficit and for the \$1,100,-

000,000 loan the govern-

ment is planning to float.

Beauty Chats

By Edna Kent Forbes

All requests for beauty information desired by Edna Kent Forbes column followers must be accompanied by a fully self-addressed, stamped envelope (s. a. e.) and two cents in stamps to cover cost of printing and handling.

For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully s.a.e. must be enclosed. Address Miss Forbes in care of this paper.

ARMS, SHOULDERS, ELBOWS

If your elbows are not pretty, it is your own fault, for it is very easy to keep them smooth and attractive looking. The arms and the shoulders are a more difficult problem. But this winter shoulder capes, such as a boon to the women who are too fat or too thin, will wane in popularity, and evening dresses will grow more and more backless as the winter progresses. So begin now making arms and elbows and shoulders perfect.

Do deep breathing for thin and under-developed shoulders. And if you can get one of those convenient arrangements which permit you to sit on a sliding seat and pull at weights as though rowing, by all means have one. There are several types, at varying prices, and any of them will help you. Or if you cannot spend even a small sum of money, persuade a handy man to hang a couple of weights on two ropes, which pass through pulleys—have this fastened to a wall, and do arm and chest and shoulder developing exercises by pulling at them.

For fat, go on a diet. Something can be done in the way of local reduction at expensive beauty shops, different sorts of mud packs and wax coatings are applied to the skin, which cause profuse perspiration and local reduction. And arms can be "baked" to make them perspire enough to melt off unwanted flesh. But these methods are costly, whereas dieting is most economical.

Cook your skin with a paste made of laundry starch and water, cover arms, chest, shoulders with a thick layer. Let it stand on half an hour and do this treatment weekly. It makes the skin fine and soft and clear and helps do away with sunburn. In a month we will want to be rid of the last bit of our summer tan.

Are Your Arms Pretty?

presume you mean to give your hair either a very coppery tinge or a complete henna color. The former method is usual when a person desires to cover up prematurely grey hairs without changing the natural color of the rest of the hair. For this method, shampoo as usual and rinse in hot water, then cover the hair and scalp with hot henna paste and let it stay on about three minutes. Rinse in hot and finally cold water. The other method is the same except for the length of time for the hot henna paste to remain on the hair, which may be anywhere from 30 minutes to two hours, depending upon what shade is desired.

SHARP DIFFERENCE OVER TAX REVISION SPLIT REPUBLICANS

SENATOR WATSON, REPUBLICAN FLOOR LEADER, IS OPPOSED TO CHANGES

WASHINGTON, Sept. 12.—(AP)—A sharp difference of opinion over tax revision at the next session of congress is held by administration republicans.

This was emphasized yesterday when Senator Watson of Indiana, the republican floor leader, declared at the white house that he was opposed to a revision at this time. His view on how to meet the treasury deficit this year differed from the revision proposals of Senator Reed of Pennsylvania, and Representative Bacharach of New Jersey, also administration followers.

At the same time, Senator Harrison, of Mississippi, ranking democrat on the finance committee, said in a statement through the democratic national committee that "of all times this is the worst for men in high places to talk about increasing burdens upon the American public."

Senator Watson said it would be a mistake to attempt to revise the revenue system at the next session, because, he added, it would have an unsettling influence upon business generally.

The difference of opinion was voiced while President Hoover is studying the problem of whether to recommend a change in the revenue system or to continue the treasury practice of borrowing money through long term bond issues and short term financing to meet the deficit created by declining receipts and growing expenditures.

Reed For Sales Tax. Senator Reed is sponsoring a general tax of one-half of one percent upon all sales of commodities. He said if not additional revenue was necessary, "we must then put our foot down on the farm board, on any further appropriations for stabilizing operations, and we must say 'no' to the American Legion, the Veterans of Foreign Wars, and other organizations demanding increased benefits for veterans."

Watson expressed faith in the ability of Secretary Mellon to secure funds to meet expenditures during the depression and urged that the people "find where we stand" before going into the revision if it is necessary.

His view met the approval of Senator Hatfield, republican, West Virginia, who said he was fearful of the consequences a revision would have on business conditions generally.

Harrison In Opposition. Representative Bacharach had advocated an increase in the income taxes in the upper brackets, along with a gift tax, but Senator Harrison said the federal finance were not in a strained condition. "We have a deficit," he said, "the Mississippi said, 'resulting from the narrow and selfish policies of the Hoover administration which allowed business and deprived the government of reasonable revenues.'"

"But it must not be forgotten that for the last ten years, under the leadership of Mr. Mellon, as secretary of the treasury, over 250 to 300 millions of dollars annually were collected by the government in excess of governmental requirements. These excess collections built up large surpluses at the expense of the taxpayers. They went toward the payment of the national debt and today we are more than five years ahead of the scheduled time in which the government believed the national debt should be retired."

From President William Green of the American Federation of Labor came opposition to Reed's sales tax proposal. He said the federation would exercise its influence to prevent enactment of such legislation and added that it would be unfair and unjust to the masses particularly at this time.

BRIAND SAYS WAR MUST BE OUTLAWED FOR FULL SECURITY

GENEVA, Sept. 11.—(AP)—Aristide Briand, making his first speech at this year's assembly of the League of Nations today, reiterated the French contention that the problem of security must be solved before real reduction of armaments can be realized.

He promised that France would help, but he made it clear that in his belief the first task of next year's disarmament conference will be to make "the crime of war" legally impossible.

He did not mention the proposal advanced by Dino Grandi, Italian foreign minister, for a last at least until the end of next year's conference, but immediately after the plan was adopted, he said, "now a man or woman in Texas, now out of employment, who is capable of working, need suffer from want of employment, and the price of cotton and all farm products would immediately advance, and the depression as far as Texas is concerned would be a forgotten thing."

Hatcher said that in the past six years the salaries of state employees had been advanced 25 to 50 per cent, except for five department heads whose salaries were fixed by the constitution. There was a similar increase, he said, in the number of employees, whereas the cost of living had decreased from 25 to 50 per cent.

He said the biennial expenses of the general state government could be reduced easily from 60 million to ten million dollars without impairment of service and such a reduction should not be put into effect unless his proposals for increasing employment were adopted.

The census estimate, it was recalled, was made in January at the height of seasonal unemployment, when farm laborers, road workers, and many railroad employees were idle.

Federal relief experts also calculate that there are 17 breadwinners to every 10 families, and that while the census bureau as-

Well Trained Elephants Feature With Sells-Floto Circus for 1931

Elephants with the Sells Floto Circus are said to be the best trained and most accommodating of all pachyderms. Plenty of education has been instilled into these lumbering beasts and when America's favorite circus comes to Corsicana next Friday, 25th, spectators will see the fastest and quickest herds in the circus world. Among the remarkable girl trainers will be Miss Irene Ledgett, who is unusually competent at obtaining results. Miss Ledgett has taught her "bulls" the art of dancing and the climax of the

MAKE THIS MODEL AT HOME

The Corsicana Daily Sun Daily Pattern
FABRIC CONTRAST FOR FALL—PATTERN 2186

By ANNE ADAMS
A stunning frock to complete an ensemble or to be worn with a fur scarf, uses different fabrics for bodice and skirt flare. The original had a skirt of black velvet, the bodice was black and white canton crepe. Equally chic are combinations of sheer wool and silk or wool and velveteen. Also two colors or shades of the same fabric may be chosen with delightful results, such as brown and gold satin, wine and flesh canton crepe.

Pattern 2186 is obtainable only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 requires 2-3/4 yards of 39 inch fabric and 2-1/2 yards of contrasting yardage. For every size and simple instructions are given. No dressmaking experience is necessary to make this model with our pattern.

Send Fifteen Cents (15c) in coins or stamps (coins preferred), for each pattern. Write plainly your name, address and style number. Be sure to state size wanted.

The New Fall Catalog is now ready. It features the newest in afternoon, sports and house dresses, lingerie, pajamas and kid's clothes. Also delightful gift suggestions in accessories and transfer patterns. Price of catalog, Fifteen Cents. Address all mail and orders to Corsicana Daily Sun-Pattern Department, 243 West 17th Street, New York City.

Famous Crank Fountain Pens with your pen on it. Free today this year for \$10 in Cash Tickets.—City Book Store.

FIVE-DAY WEEK FOR STATE EMPLOYEES ADVOCATED BY FORMER STATE TREASURER

DALLAS, Sept. 12.—(AP)—W. Gregory Hatcher, former state treasurer, in a statement issued today advocated a five-day week for state employees, a corresponding reduction in their pay, and employment of other workers with the funds thus saved as a means of improving economic conditions. He advocated similar procedure by counties, municipalities, railways, public utilities and all other corporations and persons employing labor. If the plan were adopted, he said, "now a man or woman in Texas, now out of employment, who is capable of working, need suffer from want of employment, and the price of cotton and all farm products would immediately advance, and the depression as far as Texas is concerned would be a forgotten thing."

FEDERAL OFFICIALS FEEL THERE IS NO OCCASION FOR ALARM OVER UNEMPLOYMENT

By NATHAN ROBERTSON
WASHINGTON, Sept. 12.—(AP)—Federal relief efforts were based today on the assumption that the number of unemployed in distress was not as great as some of the loudest critics of the federal government have been claiming. Administration officials regard the distress problem as serious but are confident it can be adequately cared for and feel there is no occasion for public alarm.

A survey of the probable relief burden is being made by government agencies in collaboration with private welfare agencies and federal officials are not yet ready to estimate what it will be. They are confident, however, on the basis of last year's experience, that the total number of unemployed does not represent a number who will need help.

Administration leaders believe that while the census bureau as-

LINDBERGH SEE SIGHTS OF OSAKA DISTRICT MONDAY

OSAKA, Japan, Sept. 14.—(AP)—Colonel and Mrs. Charles A. Lindbergh were sightseeing in and around this industrial city today, continuing their aerial vacation which started more than a month ago in New York.

They arrived here yesterday after a three-hour flight from Kasumigaura airport, near Tokyo. They were guided by planes of the Japan Air Transport Company at Colonel Lindbergh's request. The colonel sought the service of a guide plane to avoid the possibility of flying over fortified areas.

After the formalities at the Kasumigaura airport here, the Lindberghs called upon Governor Shibusawa and Mayor Seki. Then they drove about the city, later motoring to Kyoto.

From there, the Lindberghs will proceed to Nagasaki, Shimomoto and Fukuoka before hopping for Nanking, capital of China. How soon they will be able to continue the flight from Nanking depends upon weather conditions. Storm warnings flew on various parts of the Japanese empire late yesterday.

GENERAL PERSHING RESTS AFTER BUSY BIRTHDAY SUNDAY

LINCOLN, Neb., Sept. 14.—(AP)—Gen. John J. Pershing, who was commander of University of Nebraska cadets here 35 years ago, today rested up after a busy day spent in Lincoln yesterday celebrating his 71st birthday.

The general here for a three weeks visit with his sister, Miss May Pershing, and his son, Warren, who is a lieutenant colonel in the army, and his wife, Mrs. Pershing, who is a nurse.

Although worn by extended travel abroad, the leader of the American expeditionary forces in the World War I campaign, Gen. Pershing has regained Lincoln as his home and often returns here.

Warren Pershing, now a student at the University of Nebraska, has been in the army since he was 16.

SCHOFIELD WILL SUCCEED CHASE AS FLEET COMMANDER

SAN PEDRO, Calif., Sept. 14.—(AP)—Admiral Frank B. Schofield will become commander-in-chief of the nation's battles fleet tomorrow in succession to Admiral J. H. Chase.

Gold Braid cocked hats and gleaming epaulettes will supply the background for the designation of Admiral Schofield as the new commander, outranked in naval circles only by Secretary of the Navy, and President Hoover.

Admiral William V. Pratt, chief of operations for the naval bureau at Washington, will witness the ceremony. Admiral Chase is scheduled for duty at Washington as a member of the navy general board.

Admiral Schofield comes to his new post from the battle force, where he has been commander-in-chief of the past year.

Command of the battle force will fall to Vice Admiral Richard H. Leigh, heretofore commander of the Atlantic fleet.

PANGBORN-HERNDON PLAN PACIFIC HOP LATE IN SEPTEMBER

TOKYO, Sept. 14.—(AP)—Clyde Pangborn and Hugh Herndon announced they expect to take off from Samushiro Beach, in northern Japan about Sept. 26 on a projected non-stop trans-Pacific flight to the United States.

The fliers, who were fined last month for having photographed forbidden Japanese areas while flying to Tokyo from Siberia, said they had been given a permit.

The Americans said they understood the ministry of communications recently took the question out of the hands of subordinate officials and had decided to grant the application filed on their behalf by the American embassy "in the interest of international friendship."

The fliers said, however, they had no official information of the decision.

Therefore many families still have some income even though one member is out of work.

They take a stock in estimates that 6,000,000 unemployed means that counting members of the families of the jobsless 30,000,000 are in need.

The census next winter, they believe, will not be of aiding 30,000,000 people, but only those who are destitute.

Overemphasis of the problem, according to their view, has disturbed the public mind. Walter S. Gifford, national relief director, yesterday appointed eight more state representatives of his organization, making a total of 100. They have been selected. While his organization neared completion American Legion officials were making final plans for the conference of governors, city mayors and state legislators, which will meet here Monday under legion auspices to study the unemployment problem.

GREAT BRITAIN MAY ENACT TARIFF LAW FOR REVENUE

POSSIBILITY IS SEEN THAT
FREE TRADE POLICY GOVERNMENT
COULD BE CHANGED

LONDON, Sept. 12.—(AP)—The possibility that the emergency government would abandon its free trade policy in favor of a protective tariff law, as a further means of dealing with the financial problem was foreseen in political circles today.

Encouraged by the developments of the last few days, protectionists were of the opinion that the bill already was in motion and some went so far as to say that a tariff policy would be adopted within the next three months.

The Daily Mail said it was able to announce that the government was certain to make such a move before the end of the year. Prime Minister MacDonald and Secretary of Dominions Thomas were credited with expressing favorable opinions and even Chancellor Snowden was said to have realized that he must modify his free trade views.

"The political developments in recent days have all been pointing in this direction," the paper said, "and decisions which have been taken in the last 24 hours make a tariff policy inevitable."

Whether Mr. Snowden would be willing to gather a tariff measure was considered doubtful and it was supposed that he would resign rather than identify himself with the adoption of the protectionist system.

Mr. Chamberlain, health minister in the government, in a warmly advocated such a change and said unless the people had a tariff soon they would not be able to live. He scouted the idea of a tariff on imports, but said by some, and said it must be higher to prevent foreign goods entering the country.

MARKET TURNED DULL AFTER FIRST TRADING FLURRY

NEW YORK, Sept. 14.—(AP)—Intermittent flurries of heavy selling sent the stock market into new low ground today, as measured by several price averages.

A slight rally in the last hour, but in the main lackluster vigor, as did previous temporary upturns. The losing tone was weak. Sales were well over 2,000,000 shares. U. S. Steel met support after dropping more than 2 points. Extreme losses of 3 to 5 points appeared in such issues as American Telephone, American Can, Allied Chemical, Santa Fe, and National Biscuit.

CORSICANA NEGRO HIJACKED SUNDAY NIGHT AND BEATEN

Joe Sparks, negro, owner of a restaurant on Commerce street, was hijacked and beaten Sunday night, a short time before midnight, and two negro men are in the custody of the Corsicana police department with serious charges pending against them and a negro woman is also being held in connection with the case. Sparks had no money on his person but received a severe beating.

According to reports the negro woman, wife of one of the negroes held, put Joe Sparks "on the spot" for her husband and another negro, of Dallas. The affair took place near the Burlington-Rock Island depot on East Collin street. The two men are alleged to have "ain in wait" for Sparks and when he approached them they held him and one holding a sawed-off Winchester rifle on him and the other holding an iron rod against his back.

In a statement by one of the accused negroes to Chief of Detectives Bruce Nutt, who effected the arrests, the negroes said they laid bare and it was stated that Sparks attempted to run but was knocked in the head and held captive until it was disclosed he had no money on him. After checking up on the affair and working up the case Chief Knight stated the negroes would be turned over to the county authorities where charges are expected to be filed against them.

The negro woman was arrested Sunday night but the two negro men were not arrested until Monday morning.

Violent Deaths

(Continued From Page 1.)

wreck near Corsicana yesterday.

Hall was electrocuted near Longview Saturday when a long piece of pipe he was handling came in contact with an electric conveyor carrying 110 volts. Zwick was fatally injured when his head came in contact with power wires as he worked in a basement in Houston Saturday.

De Hoyos fell to his death while working about machines at a Mexican celebration in San Antonio yesterday.

Killed By Truck.

TEXARKANA, Sept. 14.—(P)—Ed Johnson, 46, New Boston business man, was fatally injured late yesterday when struck by a heavy truck as he walked across the main thoroughfare there.

He died en route to a Texarkana hospital. Deputy Sheriff Bob White, who investigated the accident, absolved the truck driver of blame.

Two Injured In Plane Crash.

WACO, Sept. 14.—(P)—Two persons, a man and a boy, were injured when an airplane in which they were riding developed engine trouble and crashed near the East Waco airport yesterday.

T. H. Matthews, pilot, suffered a broken leg and numerous bruises. His step-son, Rip Carter, 16, received cuts and bruises.

Matthews was attempting to get the missing motor back to the airport when it nose-dived from a height of 150 feet.

Soldier Killed In Automobile Wreck

PORT LAVACA, Sept. 14.—(P)—Sergeant Benjamin Axelrod of the Twelfth Observation squadron at San Antonio, was killed on the highway near here last night when the automobile in which he was riding overturned. His neck was broken.

Sgt. D. L. Brian, riding with Axelrod, escaped, with minor injuries. He was unable to account for the accident.

Axelrod was en route to the summer encampment of the Twelfth Observation squadron near Magnolia Beach when the accident occurred. His body was to be returned to San Antonio today by transport plane. His widow resides at San Antonio.

ASSAULT CHARGES FILED.

AUSTIN, Sept. 14.—(P)—Charges of assault with intent to murder were filed in justice court here today against Alvin D. Clayton in connection with the shooting near Manchaca yesterday of Claude McDaniels.

McDaniels and Clayton were brothers-in-law.

Early reports stated Mrs. McDaniels also had been shot. Officials said this report could not be verified. They were continuing their investigation.

AIRPLANE EXPLODED IN MIDAIR AND LITERALLY BLOWN PIECES SATURDAY

MOSCOW, Sept. 14.—(P)—The airplane Hyphen II, in which Joseph Lebrich and Rene Mesmin were killed in a crash near Ufa on Saturday was literally blown to pieces in mid-air by an explosion in the motor, the Tass Agency correspondent reported today from the scene on the wreck.

There were indications that the machine had caught fire, for the correspondent said a wide area of the meadow in which the plane crashed had been burned over. Bits of the ship littered the ground.

The dispatch did not say whether the bodies of Lebrich and Mesmin were burned nor whether Marcel Dorot, the third man in the ship had been hurt.

It was thought here Dorot probably had been blown out of the plane by the force of the explosion while his comrades were either trapped in the cabin or killed by the blast before the plane struck. Previous dispatches said Dorot had landed in his parachute.

The Tass correspondent said the main fuel tank and the engine were found a hundred yards apart and that a special guard had been posted over the wreckage awaiting the arrival of Soviet aviation officials to investigate the accident.

The bodies were placed in temporary graves near the spot where the ship crashed, and were disinterred for the trip to Moscow today.

Mesmin was piloting at the time of the accident, Dorot told the Tass correspondent.

"He tried to bail out in his parachute," the survivor said, "but the chute did not open and Mesmin got tangled up in the falling wreckage of the plane. Poor Lebrich was belted in too tight and could not work himself loose in time to jump."

Dorot was not hurt at all and seemed to be in as good spirits as could be expected. He would not talk about the possible causes of the accident, asserting this was a matter for the experts to determine. He said, however, the crash occurred in a bad fog while a heavy rain was falling.

"I shall fly back here again some day," he said, "and visit this spot in memory of my comrades. I will stay here as long as their bodies are here and I shall not go home without them."

AIMEE SEMPLE M'PHERSON JOINS OTHER MEMBERS OF FAMILY IN WEDDED BLISS

LOS ANGELES, Sept. 14.—(P)—Aimee Semple McPherson, Los Angeles evangelist, whose mother and two children have been married in the last few months, was honeymooning today with David L. Hutton, 20-year-old Angelus Temple baritone.

They were married on the steps of an airplane in a drizzling rain at the Yuma, Ariz., airport about sunrise yesterday by Miss Harriet Jordan, dean of the Angelus Temple Bible school. Mrs. McPherson gave her age as 38.

The wedding, according to the evangelist, came as a climax to a romance of several years' duration.

"Mr. Hutton is a splendid man and I know we are going to be happy—gloriously happy," she said.

The evangelist became acquainted with Hutton several years ago when he associated himself with Angelus Temple musical activities. He is a music teacher by profession. Recently he appeared as the Pharaoh who sat upon a gilded throne and sang in the evangelist's sacred opera, "The Iron Furnace."

The newlyweds flew back to Los Angeles immediately after the ceremony was performed. The evangelist announced the wedding to her congregation at the morning service.

Rolf McPherson, the evangelist's son and his bride, Lorna Dore Smith, formerly of Alta, Ok., were the witnesses.

Informing of her daughter's marriage, Mrs. Minnie (Ma) Kennedy, now conducting an evangelistic campaign at Las Vegas, Nevada, was quoted as saying she was "overjoyed." Mrs. Kennedy and

High School Band In Rehearsal Today

One of the most enthusiastic high school band rehearsals of the year was held at the high school Monday morning with over 50 members in attendance. Joel C. Trimble, director, announced. He said the band showed mid-season form.

Definite arrangements to carry the band to the Tiger-Highland Park football game, in Dallas Friday night, were made. Next rehearsal will be Wednesday morning at 7:30.

Chamber Directors To Meet Tuesday

The regular bi-weekly meeting of directors of the Chamber of Commerce will be held Tuesday morning at 11 o'clock, according to an announcement this morning by W. O. Harwell, the secretary-manager.

Corsicana Royalty Owners in Van Oil Field Win In Suit

A group of Corsicana men returned from Canton, Van Zandt county, Saturday where they had been tied up in a law suit for some days. The suit involved some royalty holdings of the Corsicana men in the Van field and was part of a suit of the Pure Oil Company in connection with a 62-acre tract in the heart of the proven field that had been purchased by this company.

The jury brought in a verdict for the Pure Oil Company in every contention which also was a verdict in favor of the Corsicana royalty owners. There were over fifteen attorneys involved in the suit, which attracted much attention. Those from Corsicana attending the trial were S. J. Miles, J. R. Webb, L. T. Davis and Attorney R. R. Owen and W. W. Harris.

Kerens Schools to Open Practically Two Weeks Late

KERENS, September 14.—(Spl.)—Kerens public schools will open for the 1931-32 term on September 28 which is about two weeks later than the usual opening date for the school. The board of education in setting the date so late stated that it was in the interest of the many patrons who live in the cotton farming area of the school district as the Kerens school has fifty-three square miles of territory in the district now and the people need the children to help with the crops.

Superintendent J. J. Hendricks states that the instructional costs for the schools of the Kerens school district has been cut about 15 per cent without cutting any of the salaries of the teachers by increasing the load of teachers and reducing the number of teachers in the system. Vocational agriculture and commercial work in the Kerens schools were fully affiliated this past year which will make all of the work taught this year in the school system affiliated work.

Busy Session of Corporation Court Monday morning

As a result of the activities of the police department over the week-end Corporation Judge H. S. Melear had a busy court session Monday morning. Chief Knight had issued orders for close watch on all parts of the city and the results were noticeable. There were two charged with being drunk and disturbing the peace, two with being plain drunk and two others with disturbing the peace in general and engaging in a fight.

Traffic law violations that halted several into court were noted as follows: One charged with speeding, one with failing to head a traffic signal one with running through a boulevard stop sign and another charged with fast and careless driving, the latter having

Buy Real Estate NOW

Regardless of general business conditions, real estate is the greatest business stabilizer. You must admit that real estate depreciates less than anything else during times of depressions. Real Estate is the basis of all wealth. It can truly be called our measure of values, somewhat like gold is the basis of our money value.

The World Went Nutty on Stocks

For your own satisfaction, check up and note conditions in any community. Real Estate is off FAR less than anything else. Take stocks for instance. Some of the most valuable and considered the most sound and profitable in the world have seen a slump of from fifty to seventy-five per cent, and the end is not yet. That is rarely true of real estate anywhere, especially in Navarro county and Corsicana. True in some cases values are off but no more than fifty per cent in extreme cases, and there are good reasons for that. Most everybody around here knows that real estate values were considerably inflated a few years ago, for various reasons.

The Depression

—has thoroughly squeezed all the water out of these values. It means that the prices now are off very little from sound values. There never was a better time to buy real estate than right now. There are real estate bargains in every kind of property. The man or woman who puts their surplus cash in real estate NOW, bought on a low market, (nothing safer than the earth itself) will not only safeguard savings, but will find within a short time, his investment will enhance in value, and more than that, it will tend to restore confidence and stimulate the sale of our basic property values and hasten prosperity.

List your property with me now and get the benefit of my advertising campaign now in progress, without cost to you, and if priced right, I can sell it if it can be sold.

Don't put off investigating these bargains. Act Now.

Land City Property

Don't Rent Land, I Sell It
80 acres on Mexia and Waco, paved road, only \$65.00 per acre. Tank, Well and Cistern water. Not encumbered and will sell for down payment of \$30.

80 Acres Dandy stock farm, well watered, improved in good condition, terraced, will take clear place in town for equity. Ove \$1350, repayable only \$48.75 twice a year.

82 acres N. E. of Kerens near school, not leased for oil, offered \$1.00 per acre for lease. Will take \$30.00 per acre, if sold before renting.

80 acres within two miles of Dresden, for the first \$500.00 down payment, will take \$20.00 per acre, and will take balance in wooded tract, clear, near Houston.

A Real Close-in large 7 room with all conveniences, on paved street will go for \$20,000.00 without any cash down if monthly payment is attractive. Might take auto. EASY terms on balance.

A new bungalow at Zion's Rest school district just off paved road. House of 7-rooms and 2 lots. All city-conveniences except sewerage. Might trade.

Car wanted as down payment on 141 W. 11th Avenue, balance like rent. Look it over, it's nice.

An elegant corner lot 75x150 near Junior school to trade for a real nice residence if priced and located right. Will pay cash difference.
